

SUNGLASS CATALOG JANUARY 2023

SMITH

A full-page photograph of a skier in a red jacket and blue pants standing on a vast, smooth, snow-covered mountain slope. The skier is positioned in the lower center of the frame, leaving a small trail of tracks in the snow. The background features steep, rugged mountain peaks with patches of snow and exposed dark rock faces under a clear blue sky. The overall scene conveys a sense of adventure and the beauty of a winter sports environment.

The experience is everything.™

**Eyewear designed for performance at the highest level.**

Sunglasses that give every performance advantage possible; for Advantage Seekers that use eyewear to gain an edge when it matters most.

## SPORT & PERFORMANCE

# Pursuit

cod. 205729

Available with **ChromaPop™**

INTERCHANGEABLE LENS

148 66 135

Pursue your thrill in the backcountry. From skin track to boot pack to full-speed descents, the Smith Pursuit sunglasses can do it all. They blend goggle-like coverage with the airflow and easy-to-wear feel of sunglasses that perform while you're climbing and descending. Our **ChromaPop™** Glacier Photochromic lens adapts to changing light conditions and delivers color and contrast-boosting performance throughout the full range of the lens. Removable, magnetic side shields add peripheral light coverage, and adjustable temple arms let you customize the fit. A pack-friendly, screwless hinge creates a fail-safe backcountry design, and a low-profile case ensures minimal storage in your pack.

Winding descents. Technical climbs. Wide-open straightaways. It's all sharper with the Smith Momentum sunglasses. Performance takes on a new level of clarity thanks to the dual curvature of the toric lens. With a half-frame design, they provide maximum peripheral vision and the crisp visuals of contrast and color-boosting **ChromaPop™** for a terrain-defining view. Whether you're blasting through the trees or rolling in the open, the two-position nose pad and adjustable, corewire temples keep them secure at any pace. Interchangeable lenses lets you pick the right tint for the day.

# Embark cod. 204617

Available with **ChromaPop™**

RX COMPATIBLE

58 45 16 145

Glacier travel. High elevation summits. Spring snowfields. Eye protection in the alpine is serious business. Whether you're skiing or mountaineering, the Smith Embark sunglasses hold up to harsh, ever-changing conditions while providing a contrast-boosting view of every crevasse, wind drift and terrain feature.

The UV and visible light activated Glacier Photochromic lens is less temperature sensitive than a traditional photochromic lens with a light transmission range from 45% to 7% that adapts dynamically to variations in light. **ChromaPop™** delivers color and contrast-boosting performance throughout the full range of the lens, so you always have the best possible view. Removable and ventilated side shields add peripheral light coverage, and low-profile, adjustable temple arms let you customize the fit. A goggle-inspired retainer strap adds the security to keep them in place through technical ascents and high-speed descents.

## VISION

Available in your choice of **ChromaPop™** Glacier Photochromic Copper Blue Mirror or **ChromaPop™** Polarized lenses

**ChromaPop™** Glacier Photochromic lens tint adapts to match the light conditions with less sensitivity to temperature changes and full **ChromaPop™** contrast and color enhancement throughout the tint range

Anti-fog and hydroleophobic coatings on the Glacier Photochromic lenses for clear optics and easy cleaning

**ChromaPop™** Polarized lenses cut glare and enhance color and contrast

## FRAME

**Evolve™** bio-based frame material is lightweight and durable

AutoLock hinges hold frames open for easy one-hand on and off

## FIT

Easy-adjust QuickFit temples for a customized fit

6-base lens curvature offers a modest wraparound fit

Megol temple and nose pads provide non-slip grip so glasses stay put

# Attack MAG MTB

cod. 202299

Available with **ChromaPop™**

INTERCHANGEABLE LENS

130 | 53 | 120

The trail-ready Smith Attack MAG MTB sunglasses deliver the ultimate in advanced performance and customizable protection. The MAG quick-release magnetic lens change system enables rapid transitions to easily match varying light conditions. Riders can quickly alternate between the included bright-light and low-light **ChromaPop™** lenses, which deliver precision detailed optics and impact protection. The adjustable two-position nose pad delivers a custom fit for both narrow and wide profiles, plus non-slip megol nose and temple pads keep the sunglasses in place, responding with increased grip as you break a sweat. A low-profile ventilation channel in the brow ensures fog-free vision. The Smith Attack MAG MTB are the advantage performance eyewear to advance you a notch above.

# Bobcat cod. 204927

Available with **ChromaPop™**

INTERCHANGEABLE LENS

135 | 59 | 130

Enduro trail riding to gravel adventure or backcountry powder mission, the Smith Bobcat sunglasses are for riders and skiers who want the full coverage of the Wildcat with a smaller fit and a lightweight feel. This hybrid design pairs goggle-like coverage with the airflow and easy-wear feel of sunglasses. **ChromaPop™** brings out the details on forested trails and in bright alpine bowls. The lens is interchangeable, and a bonus clear lens is included for low-light needs. No-slip fit details keeps them in place through rocky terrain and high-speed descents.

INTERCHANGEABLE LENS RX COMPATIBLE

63 46 13 120

The views are half the fun of being out there. From trail riding to sunrise runs, the Smith Leadout PivLock™ makes lens changes quick and easy so you can adjust to varying light conditions while on the move. Designed with less wrap than most performance sunglasses, they allow air to circulate to reduce fogging. The lightweight frame is impact-resistant and integrates with Smith helmets. And to help you get more time outside, we threw in a set of ChromaPop™ low-light amber lenses ideal for flat light days and dawn patrol.

RX COMPATIBLE

63 45 17 125

The Smith Castaway are the long-awaited, do-it-all in all conditions sunglasses for the serious angler. No matter the aquatic objective, the Castaway offer a real advantage thanks to the array of available high-end polarized lens options including NXT and glass with the vivid color and clarity of **ChromaPop™**. A clever built-in **PivLock™** leash retainer solves the riddle of quickly attaching (and detaching) the included sunglass leash. These premium Italian-made frames feature spring hinges and grippy megol nose and temple pads for a no-slip, extra grippy fit. An anti-reflective hydroleophobic lens coating ensures a return to crisp vision regardless of splashing or grime. Add more catching to your fishing with the Castaway.

RX COMPATIBLE

Whether your idea of fun involves a fly rod or a SUP board, these Smith sunglasses give you the unmatched clarity and secure fit for life on the water. Beneath the subtle cat-eye frames lie performance-driven details, such as a thick temple that blocks sunlight and polarized lenses that cut glare. To secure the fit, we added Megol pads at the nose and temples as well as spring hinges that self-adjust to your face. But the real kicker is our PivLock™ leash retainer. May you never lose another pair of shades to the waves.

# Emerge cod. 204055

Available with **ChromaPop™**

60 45 16 140

The Emerge are everyday sunglasses that you could wear on a run or on the water. The rectangular, bio-based frames are relaxed at the edges, giving the glasses a refined shape that flatters most faces. They come with no-slip nose pads and Smith's color-boosting **ChromaPop™** polarized lenses.

## VISION

**ChromaPop™** polarized lenses cut glare and enhance color and contrast

Smudge and moisture resistant coating for easy cleaning and clear optics

Anti-reflective coating improves clarity and reduces eye strain

## FRAME

**Evolve™** bio-based frame material is lightweight and durable

AutoLock hinges hold frames open for easy one-hand on and off

## FIT

Medium fit, medium coverage

6-base lens curvature provides a modest wraparound fit

Megol nose and temple pads provide non-slip grip so glasses stay put

## INCLUDED

The Smith Monterey pairs a stylish on-trend frame with an active fit for a perfect combination of performance and style. The gently sloping teacup design of these large coverage sunglasses make for a flattering, feminine—dare we say, intriguing, profile. This fashionable frame isn't just about looks though; the Monterey is offered with clarity- and color-enhancing ChromaPop™ lenses, plus a ChromaPop™ polarized lens option as well. The lenses are finished with moisture-, grime-, and grease-repelling lens coatings to ensure unblemished vision. The Monterey are constructed of bio-based, eco-friendly Evolve™ material and finished with grippy megol nose pads for a no-slip fit. Run, jump, cheer and kiss the sun hello with the new Monterey.

Vintage Tortoise  
Polarized Brown Gradient

# Somerset cod. 203673

Available with **ChromaPop™**

RX COMPATIBLE

53 47 22 140

## VISION

Carbonic polarized lenses cut glare and are impact-resistant

## FRAME

Lightweight stainless steel frame

## FIT

Medium fit, medium coverage

6-base lens curvature is just right for everyday wear

Silicone nose pads for a comfortable fit

## INCLUDED

Microfiber bag

The Somerset cat-eye sunglasses have a rounder shape and larger coverage than their classic predecessors. A mix of stainless steel and plastic, the frames are light enough to wear all day. These sunglasses come equipped with silicone nosepads for comfortable, no-slip grip. Available in our standard Carbonic lenses, with or without polarization.

## ARCHIVE - CIRCA 1983

Mixtapes, music videos, and big hair. Head back to the future with the 80s feel of these Smith XC sunglasses from our 1983/84 Collection. The retro vibe lives on with a flip-up lens and heritage styling dating back to the Smith Cross-Country sunglasses. **ChromaPop™** lenses make sure the future is sharp, with contrast and color-boosting optics. Acid-washed jeans and neon jackets, optional.

FLIP-UP LENS

## VISION

**ChromaPop™** lenses enhance contrast and natural color to make the details pop

Flip-up lens feature

Smudge and moisture-resistant coatings for easy cleaning and clear optics

## FRAME

**Evolve™** bio-based frame material is lightweight and durable

AutoLock hinges hold frames open for easy one-hand on and off

Goggle-inspired strap compatible temple tips

## FIT

Medium to large fit, large coverage

4-base spherical shield lens curvature

Modest wraparound fit

Megol nose pads provide non-slip grip so glasses stay put

RX COMPATIBLE

54 46 19 140

## ARCHIVE - CIRCA 1988

The thin temples and rounded cat-eye brow of the Cheetah were first seen in 1988 and had a long run as the signature Smith women's frame. Offered in many of the original frame colors, the lenses have been updated to feature our crystal clear, carbonic TLT lenses. The re-release of the Cheetah is meant to capture that same balance of getting outdoors but doing it with style.

### VISION

*ChromaPop™* polarized lenses cut glare and enhance color and contrast

Carbonic polarized lenses cut glare and offer impact resistance

## ARCHIVE - CIRCA 1988

The Questa is pulled directly from our 1990 Moto Series. The distinct retro-pattern etched into the metal of the nose, wire-core temple, and round eye wire speak to Smith's history when glasses were designed a block off Main Street in downtown Ketchum, Idaho, and ski lifts were seconds away.

# Change starts here.

Like you, we care about our planet. In everything we do, we strive to do better. The Lowdown 2 CORE sunglass features frame material made from recycled water bottles.

Keep doing better.

## Lowdown 2 cod. 203563 CORE RX COMPATIBLE

We've transformed post-consumer water bottles into a lightweight and durable frame material. At Smith, it's our REsponsibility to the outdoor COMMunity to deliver product with environmental considerations. The Lowdown 2 CORE is a sunglass with all the familiar styling and features of our top seller but with a recycled approach.

Each Lowdown 2 CORE frame is made with polarized lenses and uses an embossed logo to avoid the use of adhesives. It comes with a microfiber bag made from recycled plastic bottles, and 100% recycled packaging.

### VISION

Carbonic polarized biobased lenses

### FRAME

Made from recycled PET water bottles  
5 barrel metal hinges

### FIT

Medium-fit/medium coverage  
4 base frame

# Experience *ChromaPop*<sup>™</sup>

**AS NATURE INTENDED.**

*ChromaPop*<sup>™</sup> lens technology  
amplifies natural color and enhances  
definition.

# How *ChromaPop*<sup>TM</sup> works

Through our proprietary *ChromaPop*<sup>TM</sup> lens technology, we help you see detail and color beyond normal capabilities. *ChromaPop*<sup>TM</sup> filters two specific wavelengths of light that cause color confusion. By doing this the lens delivers greater definition, more natural color, and unmatched clarity to allow you to see more detail.

## NORMALLY

The eye's retina has trouble perceiving the difference between blue and green, and red and green light.

## WITH CHROMAPOP<sup>TM</sup>

*ChromaPop*<sup>TM</sup> filters these specific crossovers, allowing greater definition, natural color, and clarity.

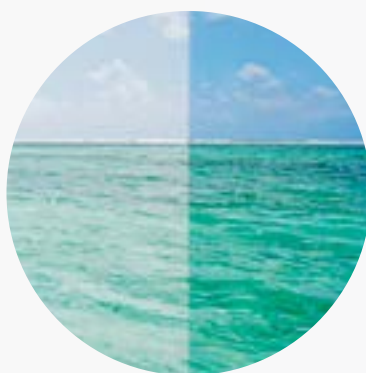

## Tints Matter.

Custom made lenses are tuned to deliver you the ultimate in visibility, clarity and durability for any experience.

CLARITY

LENS	BENEFITS	FEATURES
<b>CHROMAPOP™ GLASS POLARIZED</b>	Make the details pop and cut the glare through the clearest and lightest, scratch-resistant polarized glass lens on the market.	<i>ChromaPop™</i> Glass Polarized lenses are our clearest, most scratch resistant, mineral glass lenses infused with highly efficient polarization and anti-reflective coatings to minimize glare. 100% UV protection
<b>TECHLITE GLASS POLARIZED</b>	Cut the glare with the clearest glass lenses on the market – our ultimate scratch resistant lenses.	Our proprietary <i>Techlite</i> lenses are up to 12x more scratch resistant than polymer lenses, and 20% lighter than traditional glass, and offer 100% UV protection with an anti-reflective coating to ease eye strain.
<b>CHROMAPOP™ POLARIZED</b>	Make the details pop and cut the glare through our impact resistant carbonic lenses.	Our <i>ChromaPop™</i> Polarized lenses are optically tuned to give you visual comfort and impact protection with enhanced glare reduction – while also offering anti-reflective, water and oil resistant coatings. 100% UV protection.
<b>CHROMAPOP</b>	Make the details pop through our impact resistant carbonic lenses without polarization.	Our <i>ChromaPop™</i> lenses are optically tuned to give you visual comfort and impact protection – while also offering water and oil resistant coatings. 100% UV protection.
<b>CARBONIC POLARIZED</b>	Cut the glare through our impact resistant lenses.	Our carbonic lenses are optically tuned to give you visual comfort while including polarization for glare cutting, ANSI Z80.3 standard for impact resistance, water and oil resistant coating, and 100% UV protection.
<b>CARBONIC</b>	See clearly with these impact resistant lenses.	Our carbonic lenses are optically tuned to give you visual comfort while including ANSI Z80.3 standard for impact resistance, water and oil resistant coating, and 100% UV protection.

# Clearly better.

## LENS TECHNOLOGY.

### LENS CONSTRUCTION TO OPTIMIZE PERFORMANCE

ChromaPop™, Techlite glass and carbonic lens constructions are optimized to provide a variety of optical and impact-resistant benefits. We precisely align the finest polarized filters and finish our lenses with multi-layer mirror, anti-reflective (A/R), anti-scratch, and hydroleophobic lens coatings. The end result is an artfully crafted lens that preserves color perception and delivers optimized optical clarity and precision in all environments.

#### SMITH POLARIZATION

Polarization cuts glare. Glare off of horizontal surfaces like snow, water, and asphalt, decreases depth perception, and reduces visual acuity which causes eye fatigue. We precisely align the polarized visual layer inside our lenses to filter out 99.9% of this "visual static" for a finely tuned view of the action.

#### POLARCHROMIC: POLARIZED LENSES WITH PHOTOCHROMIC TECHNOLOGY TO ADAPT TO EVER-CHANGING LIGHT CONDITIONS

With Smith Polarchromic, we combine the glare-free benefits of advanced polarization with UV sensitive, self-tint-adjusting photochromic technology to bring you lenses that adapt to changing light conditions, so you always have the perfect tint for the amount of light.

#### TAPERED LENS TECHNOLOGY

When light passes through a medium it refracts, i.e. changes course. If left uncorrected, this refraction can cause visual distortion and eye fatigue. Smith's *Tapered Lens Technology* straightens out the incoming light rays by progressively tapering the lens from the optical center toward the peripheral view. What this means for you is that you see with 100% accuracy and maximum comfort.

#### HYDROLEOPHOBIC - WATER AND OIL PROOF COATING

Repels moisture, grease, and grime. A barrier between your lenses and the world. Water will bead up and disperse without streaking. Smudges from fingerprints are wiped clean easily.

#### ANTI-REFLECTIVE (A/R) COATING

Vacuum applied, anti-reflective (A/R) coatings on the back side of the lens will eliminate bothersome sidelight reflections.

A high-angle, wide shot of a mountainous landscape during the golden hour of late afternoon. In the foreground, a wide, curved dirt bike track with visible tire marks leads towards the middle ground. Two cyclists are riding along the track, their shadows cast long and dark on the dry earth. To the left of the track, a tennis court is visible, surrounded by a net and some trees. The middle ground is a mix of dry grass, shrubs, and a few small buildings or sheds. In the background, rolling hills and mountains are silhouetted against a bright, hazy sky. The overall mood is adventurous and serene.

Pursue your thrill.™
